#### THE DACOITS OF BURMAH.

THEY HAVE AGAIN BEGUN THEIR DEPREDATIONS.

They Einde Capture in the Mountains. Boulanger Wants the Presidency, Not the Dictatorship-Notes From Berlin and Other Points in the Old World.

LONDON, April 15.-The news from the east is not very encouraging, especially that from Burinnh. The Dacoits have again begun their depredations, and have already made a record of murder and pillage for themselves. In some of the upper districts the Dacoits, assembling in large bands, have attacked military posts, sacked towns and murdered anyone who fell into their hands.

Taies of horror from a few vilinges ou the outskirts of semi-civilization have been re-Inted, and it seems as though every Dacoit in India was in arms and possessed the firm determination to do all the hnrm and commit all the crime they could. At one of the farther military posts they were bold enough four men and wounding others. Detachments of cavniry were sent after the miscrennts, but they escaped to one of their monntain fastnesses, and thus eluded capture. Few of these wary warriors have been made captive, while they have committed numberless crimes and outriges.

In one of the remote towns a band of these coundrels mude a raid and got nway after killing three men and one or two women and burning several houses. They always plunder and rob in these attacks, but there is no report of their having obtained may considerable booty. Travelers are the especial object of their cupidity, and the Dacoits have in some cases held prisoners for a

They are very shrewd and cunning in all they do, and many attempts to capture them have proved futile, as they can go where the European soldiers cannot venture, and as for native soldiers they are of very little use when real courage must be the quality used.

Bontanger Interviewed.

PARIS, April 14.—Gen. Boulanger has at last submitted to be interviewed and has declared his aim to be the presidency of the republic, not a dictatorship. He says more-over that he does not favor war, which neither France nor Germany wishes. His supporters have issued a manifesto declaring that the general is a Republican; that he will "enter the chamber to maintain a program of democratio reform," and that he "will defend France and the republic."

The Figaro says: "The Orleanists will meet on Saturday at the residence of the Count of Paris at Twiekenhnin, England, to decide upon the advisability of supporting or condemning the union of the sections of the French conservative party who are advocating the cause of Gen. Boulnnger.

This implies that the Royalists fear the Boulanger movement may result in the consolidation of a strong radical Republican mnjority under the general. When asked by the reporter of the Figaro to which party; he belongs, he evaded a reply by tossing his knife on the table, saying: "I nm like this binde-which way must I go, right or left?" of the dissatisfied elements of all factions.

It is said a French syndicate is negotiating great Russinn loan, and still another rumor has it that the negotiation has been concluded with the imperial comption, d'Escompte. It is suspected that, in order not to impede the negotiation, Russia has manifested little military activity during the past month. President Carnot has postponed his pro-

posed journey to the south of France. Premier Flouquet has decided not to make his tour of the departments at present, but will await the debate on the policy of the

cabinet. Thursday a man fired a revolver three times near one of the gates of the Elyssee palace where the president lives. When arrested, he said that he wanted President Carnot to attend to his grievance.

A manifesto has been issued to the electors of the Nord, signed by Deputies Laguerre, Susini, Laur, Herisse and Nicholin, protesting against the employment of police and other measures, which they attribute to the government, to prevent the election of Gen.

German News.

BERLIN, April 14.-The North German Gazette, which is one of the official organs, referring to the attacks of the progressist newspapers upon Prince Bismarek for what they term his offleious interference in imperial family affairs, says: "Such insinuations make as little Impression upon Emperor Frederick as similar criticisms from the some source did upon his deceased father. Prince Bismarck was appointed chancellor of the empire by both that they might receive responsible advice according to his knowledge and conscience. They never doubted that Prince Bismarck would watch over the Interests of the imperial dynasty as attentively as over the interests of the country. This confidence stands quite apart from the question whether or not the chancellor remains prime minister. It would have no existence if it were thought possible that the chancelior could belie his connections and act dishonorably towards the emperor ln order to remain in office."

Baron Roggenhach will cause a semi-official statement to be issued at Karlsruhe denying that he has any personal pretensions to any official post, not even in the case of Chancellor Bismarck's retirement. The baron upon all occasions has strongly maintained the necessity of keeping Bismarck at the head affnirs.

The German journals still continue to play at shuttlecock with Princess Victoria's marriage engagement.

Dr. Mackenzie has ordered another tube for the emperor's throat, which has evinced irritation.

. HE DEFENDED HIMSELF.

A Watchman Attacked By a Gang of Row-

dies, Kills Two of flis Assailants. STEUBENVILLE, O., April 14 .-- Some two months ago Mike Galvin, a saloon keeper at Dennison, shot and killed Charles Conda, a yard hrakeman. Conda had been disorderly, and Galvin was deputized to make the arrest, when Conda broke away and Galvin shot. Galvin was arrested for shooting and held in \$1,000 bond awaiting the action of the grand jury. Wednesdny night, after midnight, John Gow, one of the bondsmen, and several others were in a saloon discussing the matter when a quarrel arose.

Wliliam Quillen, a young man nineteen years of age, acting as night watchman of the town, came past the saloon and ordered the quarreling to cease. This changed the quarrel from between themselves to abuse of Quillen. The gang in the saloon foilowed Quillen to the street, where the abuse became so violent that he arrested one of them. Just as he did so he was knocked down, and the whole gang jumped upon and began kicking him. He drew his revolver and shot three times, each shot taking effect. first shot struck John Gow in the left eye socket, the ball penetrating the brain and to attack the guards, and succeeded in killing causing instant death. The other shots lodged in the brain of Amos Thompson, the first penetrating the right lung and the other the bowels, causing injuries from which he died yesterday. The shooting has created inteuse excitement, and Quilien immediately gave houself up. The coroner's inquest exonerated Quillen on the ground of self-defama and justifiable homicide.

People there are much wrought up over the recent disorders, and three killings, clearly attributable to rowdy saloons. They now assert that they will have prohibition within a month. John Gow is an oid engineer on the Pan-Handie, and leaves a wife and nine small children. He was regarded as one of the most competent men on the line, and not addicted to drink, though very drunk that night. Amos Thompson is a freight conductor, and leaves a wife and two children.

USE 'EM AS FERTILIZER.

A Pittsburg Chemist's Plans for Disposing

of the Dead. PITTSBURG, April 14.-Dr. George Hay, a chemist, advances a plan for the disposition of the dead bodies of human beings. He ndvocates an economic distribution of the remains, so that they may return to the elements as soon as possible, if for no other purpose than to furnish a fertilizer. Dr. Hay would pulverize the body with the aid of machinery. He says:

"The machines might be so contrived as to brenk the bones first in pieces of the size of a hen egg, next into fragments of the size of a marble, and the mangled and lacerated mass could next be reduced by means of chopping machines and steam power to mince meat.

"At this stage we have a homogeneous mixture of the entire body structures in the form of a puipous mass of rnw meat and bones. This mass should now be dried thoroughly by mems of steam heat at a tempature of 250 degrees, or a pressure of thirty pounds to the inch, because, firstly, we wish to reduce the material to a condition convenient for hundling, and secondly, we wish to disinfect it, as no infections or contagious disease can retain its vitality at this temper-He evidently is playing to secure the support ture. Once in this condition it would command a good price for the purpose of a fertilizer.

Another method is by boiling in close vessels. The oil which would rise to the top may be drawn off to be converted into soap or lubricant. The residue may, hy various simple processes, be converted into fertilizing material.

His final and last hrilliant suggestion is the "distillation method." The bodies are to be placed in gas retorts and in about six hours will be converted into illuminating gas, water, ammonia, tar and animal charcoal. By subsequent distillations such substances as suiphate of ammonia, aniline colors and carbolic acid may be obtained. It is the process which finds most favor with the

#### JUSTICE DEFEATED.

An Inhuman Father's Narrow Escape at Titusviile, Pennsylvania.

TITUSVILLE, Pa., April 14 .- George Starkweather, a wood ehopper, sixty years of nge. living near Grand Valley, narrowly escaped lynching Thursday. He was arrested Wednesday charged with committing rape on the eidest of his eleven children, a daughter fifteen years old. At the trial it was developed that he had been continuing the incestuous erime since the girl was twelve years old, under threats of instant death should she make it known. Starkweather's wife is the accuser. After the daughter's confession! of the truth as to her condition the indignant citizens seized Starkweather, dragged him from the justice's office and had placed the rope around his neck when a sheritf's posse secured and removed him to Garland jail for safety.

KANSAS CITY, April 14.-At the city election in Belleville last week many people voted for T. Robinson for councilman, thinking it was Aaron T. Robinson, When the votes were counted T. Robinson was declared to be elected, and every one was as-tonished when Aaron T. Robinson's wife, Tina, appeared to take the oath of office, Strenuous objection was offered, and a delegation has gone to Topeka to ask the attorney general to endeavor to have the election of the body set aside.

#### CONSUL GENERAL PHELAN

EXPRESSES HIS VIEWS OF THE FISH-ERIES TREATY.

He Says We are no Longer Fishing on Suffrance-The Canucks Will Never be Satisfied, but the Treaty Will Become Popular on This Side of the Line.

New York, April 14.-A Washington special says: United States Consul General Michael H. Phelan, of Halifax, N. S., is here en route to his home in St. Louis. In speaking of the recently concluded fisheries treaty he said to your correspondent:

"The advantages accruing to the United States under the provisions of the new treaty

have been greaty underestlmated. New grounds have heen opened up to our fishermen, and all doubts removed as to our right to avail ourselves of them. We are no onger fishing on uffernnce, Under the existing trenty we can only enter

Canadian ports for

MICHAEL H. PHELAN. wood, wnter, shelter and repairs. Even then we are subjected to a disagreenble espionage. Under the new contract we are linble for no pilotage dues, and at the same time enjoy the benefits of lighthouses and safeguards to unvigation. Our vessels enn no longer be seized upon the trumped up charge of 'hovering.'

"We can now enter Canadian ports for fresh supplies, provisions, etc., saving the necessity for returning home in the midst of the fishing season. Our vessels can sell or tranship cargoes and can always enter the nearest port for anything they may lack. To my mind the Canadians have gained nothing. It may be said that the trenty might go further than it does, but it is certainly a vast improvement upon the existing agreement. While our fishermen may not be entirely satisfied it would be a serious matter, as they would quiekly realize, should the sennte reject the new convention.

"A convincing argument is the very general dissatisfaction expressed by Canadians with the provisions of this treaty. Without regard to party they are opposed to it. It is likely, however, to be ratifled by those who are in duty bound to support the government. The Canadian fishermen, however, will never be satisfied with it, while the practical operations of lts provisions will make it decidedly popular ou this side of the

of Masseys, a pretty little village in the the lower court. His common next took the upper part of Kent county, was almost entirely destroyed by fire yesterday, which result. started in a stable near the blacksmith's shop. The wind was very strong and hore the finming particles of wood to the roofs of the adjoining houses. There was not sufficient water available in the town to quench even the burning stable, and the people were compelled to hold their hands while they saw their houses destroyed. One hy one the cottages caught fire, blazed awhile and then fell in heaps of ruins until fourteen buildings had been consumed.

Among the husiness places burned are the stores of A. B. Mnrlsberger, George Ireland, Mr. Dixon and O. F. Hughey and the big hotel. With the exception of one small hotel, not a house is left in the town proper. Most of the families are without food and shelter. Some freight cars standing on a side-track were opened last night, and the villagers will dwell therein until they can procure other shelter. The loss is not estimated. Two churches, school house, railroad station and seven dwellings escaped. The heaviest loser is Dr. C. H. Massey, who lost three dwellings and two stores; not insured. Stephen Moyer lost heavily, but is insured.

A Mysterious Fire. PITTSBURG, April 14.-At 10:30 o'clock last night fire was discovered in the basement of the Chronicle Tsiegraph building, Nos. 122 and 124 Fifth avenue. The damage was confined to the press room, stock room and stereotype room in the basement, and the business office on the first floor. The damage will not exceed \$10,000; insured. The origin of the fire is a mystery. An unknown man was seen hastily leaving the building by the front door just previous to the discovery of the fire. This is the second time within a few years that the paper has suffered from the same cause. To-morrow's paper will be issued from the Disputch office.

Sporting Notes. An effort is being made to match Jack Dempsey and Pete McCoy for a ten-round glove flight.

Jack Ashton will be matched to fight Jake Kilrnin if the latter shall agree to when he returns to this country.

Jack Fognity has been arrested again at Pittsburg, and his fight with Joyce will probably be declared off. Capt. Bogardus and W. T. Irwin shot a

SHOT HIS SWEETHEART'S BROTHER.

"Happy Bob" Van Brunt Dies on the Scaffold at Warsaw, New York. WARSAW, N. Y., April 14.—"Happy Bob"

Van Brunt, of the Salvation army, was hansed here 10:18 a. m. for the murder of Will. Roy, brother of Eva Roy, whom Rob was courting at the time of the tragedy. During the last laur or two of Vnn Brunt's life his spiritual advisers and Dr. Lusk were with him. At 10:12, when the priest had completed the services, Deputy Sheriffs Bradlery and Wetherell, escorted Vnn Brunt through the corridor and out into the jail

inelo-ure. He prnyed in aimost inaudible tone and walked bravely up the steps to the scnffold. When all was ready the drop was pulled. The neck was broken, and the pulsation of the heart ceased in fourteen minutes. The hody was cut down and placed in a neat cednr casket.

Wednesday evening Eva Roy called on Governor Hill in Albany and passionately besought him to commute Bob's sentence to imprisonment for life. The governor kindly went over the points in the case and tried to show her that there were no grounds for clemency and finally said that the law must take its course.

Miss Roy grew denthly pale at these words, and her head dropped and she fell in a faint. A physician was summoned and restoratives applied. It was an hour before she recovered. Looking about her in a dazed sort of wny, she cried: "Poor Bobpoor Bobi" and sank back upon the sofa in another swoon. She was finally removed to the hospital completely broken down.

The crime which Van Brunt explated with his life was committed at Castile, Wyoming county, on the night of October 6, 1886, Van Brunt, who was a lieutenant in the Salvation army, met Eva Roy at Warsaw, and became desperately ennmored of her. He gave up the army, and having secured work in Castile removed there. He boarded as Miss Roy's home, and became engaged to her. The frequent visits there of her halfbrother, Will. Roy, aroused his jealousy.

The evening of the murder Will. Roy was at the house and sat up late with Evn as he was going awny on the miduight train. Van Brunt retired early, leaving the brother and sister nione in the parlor. Later on he heard talking in a low tone in the parlor and becoming suspicious he came down stairs. Finding Eva in her night dress sitting in close proximity to young Roy, engaged in earnest conversation, Vnn Brunt told the girl that she should be in bed. Eva made some flippant reply and renewed her whispered conversation with Roy. This seemed to have maddened Van Brunt, for he drew a revolver and fired nt Roy with fatal effect. He returned to her room, informed Fred. Roy that he had shot his brother, and making no effort to escape was taken into custody.

He was tried and convicted of murder in the first degree and sentenced to be hanged April 15, 1887. The case was appenled to the CHESTERTOWN, Md., April 14.—The town general term which affirmed the decision of

Thursday afternoon Tommy Mnlone, aged five years, was walking on the beach, when the brutes one after another leaped from the canal boat to the ground and made for him. A Shot in Time.

Montgomery, Ala., April 14.-News has reached here of a desperate and fatal fight which occurred near Rome, an out-of-theway place in Covington county, Alnbama, a day or two ago, between two colored men, Hill Johnson and Mack Andrews, Johnson attacked Andrews and a white man named Frank Douglass with an ax. He knocked Douglass down and was in the act of braining him when Andrews fired upon him with shotgun, killing him on the spot and saving the life of Douglass, who was his employer.

## How a Dying Child Was Saved!

let the opportunity escape you. It may

CICERO, HAMILTON Co., IND., Sept, 19, 1897 .-The following is a true necount of what your S. S. S. has done for our little daughter, Hazel, now four years old. When 12 months old a lump appeared on her heel, which slowly grew larger. The family physician thought it was caused by a piece of broken glass or needle, but failed to bring anything to light. The child became feebler all the time, seeming to lose the use of her leg, and fluilly quit walking entirely. The middle finger and thumb of either hand became enlarged, the flesh becoming hard. The htp joints became involv ed, so that when seventeen mouths old she could not stand, having lost the use of legand arm. Partial curvature of the spine also followed. The nervous system was wrecked, muscles contracted, and there was general wasting of flesh and muscle. At eighteen months of age she was pinced under the treatment of a prominent physician of Boston, Mass., but at the end of ten months she had declined to such a degree that she was in a dying condition. This was in April, 1886 We took the child away not knowing what to do. In this dreadful dilemma we were over-persuaded by friends to try "one bottle" of Swift's Specific, which we did, and before it had all been taken we saw a change for the better in her symptoms. We kept it np, and have done so to this day, and will keep it up, if the Lord wills, for many days to come, for it has brought our dying Hazel to life, to vigor, to strength and health again. The ashen hue of her cheeks has changed to a rosy tint. She is able to walk anywhere, her languor and melancholy have passed away, and she is now a blithe, cheerful, happy romping child. Should you wish to increase your testimonials of proof of the virtue of S. S. S., our names and what we have said is but a portion of what we owe to you, should you wish to use them.

Kindly yours, BEN. F. SWIFT. GERTRUDE E. SWIFT.

#### PRACTICAL CO-OPERATION

GENERAL SECRETARY LITCHMAN ISSUES A CIRCULAR

And Advocates Its Distribution Through Stores Rather Than Protection Through Factories-The Brewers' Troubles About the Same-Labor News.

PHILADELPHIA, April 14.-C. H. Litchman, general secretary of the Knights of Labor, has issued a circular to the members of the order outlining a plan for practical co-operation.

"Co-operation," the circular says, "begins and seems to succeed better in distribution through stores rather than in production through factories. Following out this apparently natural law of co-operative effort, we believe it possible, at once and without capital, to establish in and through the order the grandest co-operative effort the world has ever seen."

Mr. Litchman in a brief outline of the plan, then suggests that manufacturers and co-operative establishments, "members of the order," file with the general sccretary a complete price catalogue of the goods they produce; that these price lists be classified and printed copies sent to every local assembly, and that each assembly appoint an agent to handle orders for the goods. Tire scheme also provides for a fee from each estahlishment entering into the agreement; the stamping of the makers name upon the goods to guarantee their quality, etc.
The circular concludes: "The gain would

be an immense concentration of patronage upon goods produced by our own people, quality guaranteed, prices moderate, elimination as far as possible of middlemen and the substitution of a co-operative for a competitive system.

Mr. Litchman invites discussion of the scheme by the various assemblies of the order.

#### New York Rrewers.

NEW YORK, April 14.—The situation with regard to the threatened lockout of the journeymen brewers of this city remains unchanged. The brewery proprietors say that the lockout will be Monday. They expect to have no trouble in securing men to fill the places of the old hands and have already enengaged a number of men. The journeymen are hopeful and say that the bosses cannot fill their places satisfactorily. The trouble arises from the refusal of the boss brewers to sign an obnoxious contract drawn up by their men for the ensuing year.

#### Chlcago Brewers.

CHICAGO, April 14. - The situation is very little changed. Nearly all the brewers had succeeded in hiring some new men, but none of the establishments which were stopped by the strike have resumed operations. The bosses say the association has advertised for experienced brewers in Milwaukee, Cincinnati, St. Louis and other places, and it was only a question of time when enough skilled hands would be secured to fill all the vacant piaces.

#### Burlington Lawlessness.

CRESTON, Iowa, April 14.—The lawlessness of a week ago was renewed Wednesday night, and there were a number of acts of violence in and about the Burlington yards. An ex-fireman named Donahue assaulted a working fireman named Heffen. A switch engine, while pushing the Denver train, was stoned and windows broken in the engine cab and dining car. Stones and brickbats were also thrown through a window of Superintendent Brown's private car about 1i o'clock, Mr. Brown being in the car at the

Some freight engines were stoned later in the night, and windows broken from their cabs. No one was hurt. All efforts to capture the offenders have been fruitless. Extra city police are kept on duty all night.

#### Contributions Asked.

Philadelphia, April 14.—The executive board of Knights of Labor miners, has issued a circuinr to the friends of organized inbor asking for contribution to assist in paying of the indebtedness incurred in assisting the striking miners in the Lehigh coal regions, and to assist some seven hundred miners, who, since the collapse of the strike, have been "blacklisted,"

#### THE BALD KNOBBERS.

#### Dave Walker to be Executed-The Sentence of the Others.

St. Louis, April 14.—The jury in the case of David Walker, leader of the Bald Knobhers, on trial at Ozark, Mo., returned a verdict of murder in the first degree. James Matthews, William Stanley, Amos Jones and C. C. Simmons, the preacher, were then sentenced by the court, three of them having pleaded to nurder in the second degree, Stanley and Jones got twenty-one years in the penitentiary; Simmons, fifteen years, and Mutthews was released on \$1,000 bail. Staniey took his sentence very hard and toid the judge that he was very severe, and Simmous made a very pathetic appeal to the court. It is said that nobody believes that
